## TURK'S HEAD BREWERY

**Crafted by the Islands. Loved by everyone.**

Turk's Head Brewery isn't just a brewery—it's an icon of Turks & Caicos. Founded as the islands' first local beer maker, we've grown into a cornerstone of our community, economy, and culture. Today, our flagship brew, I-Soon-Reach, proudly stands as the most popular beer on these shores. Taste the authentic spirit of an island poured into every can.

For more than two decades, Turk's Head has brewed with a sense of place—an identity shaped by ocean tides, sun-soaked days, and the easy rhythm of island life. What began as a pioneering idea has evolved into a national brand that locals proudly call their own, and that visitors seek out as part of an authentic Caribbean experience. Every label tells a story. Every sip captures a moment. This is more than just beer—it's Turks & Caicos in a bottle.

## Rooted in Tradition, Flowing with Pride.

Since 2001, Turk's Head Brewery has captured the heart and spirit of Turks & Caicos, crafting exceptional beers inspired by island life. As the islands' only brewery, Turk's Head plays an essential role not just in local tradition, but as a significant contributor to the economy—supporting local jobs and helping sustain countless businesses from Providenciales to Grand Turk. Every beer brewed is more than a drink; it's a tangible expression of community pride, carefully crafted to reflect the vibrant personality of these beautiful islands.

Turk's Head operates under Provo Beverages, a proudly local enterprise that also produces beloved regional spirits and liqueurs. From beer to bottled

water, rum to cream liqueur, Provo Beverages has become synonymous with local craftsmanship across its brands, and is the country's largest producer—as well as a respected employer..

## Waves of Flavour.

Provo Beverages offers a diverse portfolio of island-crafted beverages. **Osprey Vodka** delivers a bold, crisp taste through its triple distillation process, and offers Black Cherry Hard Seltzer and Osprey Chill—a sparkling lemon-lime vodka beverage. **21°North Gin** presents a signature gin, capturing the essence of the islands. **Tradewinds Spirits** features a range of rums—Coconut, White, Gold, Dark—and liqueurs like Coffee and Triple Sec. **Caicos Cream** offers a handcrafted Irish-style cream liqueur, blending golden-aged whiskey, fresh cream, and organic cacao for a velvety finish. **Bambashay** brings the vibrant Caicos Cran, a vodka cranberry cocktail, to the lineup.

**TC Crystal**, the leading water provider in Turks & Caicos, emphasizes sustainability with products like NATURA canned water, utilizing biodegradable technology and recyclable packaging.

Together, these brands reflect Provo Beverages' commitment to quality and environmental responsibility.
