# ActionFlight:

## Sky-High Adventure with Safety at Its Core

For those who dream of soaring above terracotta dunes at sunrise or flipping through the skies in a high-performance aerobatic aircraft, ActionFlight in Ras Al Khaimah, UAE, turns those dreams into reality — all with elite aviation professionalism and unmatched safety.

Born from over 15 years of aviation excellence, including a legacy of Red Bull-sponsored aerobatics in New Zealand, ActionFlight is the first of its kind in the Middle East to offer a full suite of luxury, aviation-based adventure experiences under one operation. From **hot air balloon flights** over wildlife-rich desert to **G-force aerobatic experiences** and soon-to-launch **skydiving over a beautiful mangrove-lined golf course**, ActionFlight delivers **bucket-list thrills with luxury airline-level standards**.

### More Than a Thrill Ride

What sets ActionFlight apart is its foundation in **serious aviation training and safety excellence**. The company is also home to **Vertical UPRT Solutions**, an advanced Upset Prevention and Recovery Training (UPRT) program for commercial airline pilots, aligned with global mandates. Their team includes airline captains, military pilots, instructor examiners, and international aviation consultants — all committed to a "safety first" philosophy.

### A Destination Within a Destination

Located just 45 minutes from Dubai Airport, **Ras Al Khaimah** is a rising star in the UAE's adventure tourism scene. With a blend of mountains, beaches, and dunes, it's the perfect canvas for ActionFlight's elevated offerings.

Whether you're sipping bubbles post-balloon landing, dune bashing in the desert, or pulling Gs in an aerobatic aircraft, **ActionFlight promises adventure with unmatched professionalism, safety, and soul.**

## Ballooning at Dawn

Guests are whisked away before sunrise to take flight in massive 450,000 cubic foot hot air balloons, offering peaceful, panoramic views of Ras Al Khaimah's dramatic landscapes — the Hajar Mountains, desert plains, coastline and scattered wildlife including oryx, antelope, camels, and desert foxes. Post-landing, passengers are presented with a flight certificate and treated to bubbly and refreshments in the traditional spirit of ballooning.

The experience concludes with an optional 4x4 desert safari (dune bashing) led by experienced local desert drivers, adding a thrilling ground-level adventure to your already unforgettable morning.

## Adrenaline in the Skies

For thrill-seekers, the **Extra 330 aerobatic aircraft**, similar to those used in Red Bull Air Races, offers passengers a heart-pounding 20-minute flight experience — with maneuvers reaching up to +7 and -2 G-forces. All flights depart from Ras Al Khaimah International Airport and are operated by pilots with world-class aerobatic, airline and military backgrounds.

## A Skydiving Destination in the Making

Soon, ActionFlight will launch its **skydiving drop zone** within the picturesque Tower Links Golf Club. With panoramic views across the Straits of Hormuz, lush greens, and mountain backdrops, it's set to become one of the most scenic jump sites in the region.
